

Product Information for:

Model #

CCTV -CM

Coaxial Cable Modem Surge Suppressor

The PSI Line Pro™ CCTV CM coaxial cable line surge protectors were designed to provide the highest level of surge protection possible for high-speed cable modems and they have the lowest insertion loss of any available product. The PSI Line Pro™ coaxial cable line surge protectors use state-of-the-art technology and provide multiple elements of protection for sensitive video equipment. These coaxial surge suppressors are tested to ANSI/IEEE and UL ring-wave standards that exceed 90 times the UL 497 testing. PSI coaxial surge suppressors do not employ MOV technology that will not cause high insertion loss and do not require grounding. PSI Line Pro™ coax surge protectors will not introduce ground loops into data or A/C lines. PSI coaxial surge suppressors are self-restoring after each surge within ratings.

SPECIFICATIONS OPERATING

Operating Voltage.....	7.5 Volts*
Typical Leakage Current.....	< 5u amps
Maximum Insertion Loss.....	< 1dB
Operation Temperature.....	-40 to +85 C

SPECIFICATIONS ELECTRONIC

Maximum Surge Current (8X20 us).....	500 Amps
Maximum Surge Voltage (1.2X50 us).....	6,000 Volts
Clamping Voltage.....	10 Volts*
Clamping Response Time.....	<5 nanoseconds
Current.....	Non-Load Bearing
Voltage.....	Voltage Sensitive
Pass Voltage.....	<15 Volts Peak*
(ANSI/IEEE B Ring-wave)	
Power Dissipation (8x20us).....	9,000,000 Volt Amps

SPECIFICATIONS MECHANICAL

Connection: CATVC C/F.....	8" Male Pigtail In / Female Bulkhead Out
CATV F.....	Female Bulkhead In / Female Bulkhead Out
Case Dimensions.....	2"W x 2"L x 9/16"H
Connectors.....	Stainless / Copper

* For clamping voltage options and connector options please contact PSI.
